HYPERFUELS PULLS INTO NEW STOREFRONT WITH RACE GAS TO GO
Local online retailer of performance fuels opens storefront for local racing enthusiasts

November 7, 2007 (HOUSTON)- Gulf Hydrocarbon, the premier provider of biodiesel to the petroleum industry, announced that its new racing fuel shop, HYPERFUELS, is now open to the public. Located at 12969 West Hardy Road at the Gulf Bank exit, HYPERFUELS allows racers to purchase a variety high quality race fuels, biodiesel, additives, and lubricants.

The HYPERFUELS store features racing fuels from Sunoco, Shell Racing Solutions and Turbo Blue with octanes ranging from 100-117. Fuels can be purchased in individual 5 and 55 gallon pre-sealed drums, race fuel can also run in regular cars and can be stored for up to two years, providing a quick and stable fuel source. Racing oils sold at HYPERFUELS include Royal Purple, Quaker State and Synergyn. Race fuels and oils are available in containers eligible for ground shipping throughout the USA.

HYPERFUELS also carries SynDiesel®, a synthetic diesel with a 63 cetane rating, storage life of up to 10 years and 20% more BTU's than conventional diesel. Methanol, Nitromethane and Biodiesel are also for sale, in 5 and 55 gallon drums.

The store is open to the public Monday through Friday 10 a.m. until 7 p.m. and Saturdays from 10 a.m. until 2:00 p.m. The store will also serve as a distribution center to supply the company's online clients who order fuels, lubricants, and additives through the company's two racing fuel websites: hyperfuels.com and buyracegas.com.

HYPERFUELS will have a Grand Opening party on Saturday, November 17, 2007 from 10 a.m. - 2 p.m. at the store. For more information visit: www.HYPERFUELS.com or www.buyracegas.com
